2024					
CUBIC	January 9	8P			26
COCOSYS	January 23	11A			27
SUPREME	February 6	8P			28

e-Workshops are a great venue for:

Senior students to present

Serving as a dry run for a conference presentation that gives sponsors a preview of the talk

Serving as a deadline that brings results to the table

A way to educate and engage scientists and engineers at the sponsor companies, etc.
