

**Paid
Internships!**

Summer @ CENS

Undergraduate Scholars Program

Program Details:

- **8 weeks beginning June 20, 2011**
- **Research stipend**
- **2011 projects include:**
 - Structural Health Monitoring Team
 - Water & Beach Quality Team
 - Wireless Health & Instructional Technology Team
 - Participatory Sensing Team

Application Process:

- Completed Application Form
- All Official Transcripts
- Resume
- Short Statement of Purpose
- 1 Letter of Recommendation
- **Deadline:** February 18, 2011

The **Center for Embedded Networked Sensing** is currently recruiting participants for our 2011 Summer @ CENS Undergraduate Internship Program. Headquartered at UCLA, the Center for Embedded Networked Sensing is one of 17 National Science Foundation Science & Technology Centers located at prestigious universities and laboratories across the nation.

Our Center is a major research enterprise focused on developing wireless sensing systems and applying this revolutionary technology to critical scientific and societal pursuits. Please visit our website at: <http://research.cens.ucla.edu/> to learn more.
