

# Anticipated FAQ's

- Will the webinar be recorded so I can watch later or send to colleagues?
  - It will be recorded but not posted. Those wishing to view the webinar can contact Dil to schedule a time to watch [Dilcia.Paguada@src.org](mailto:Dilcia.Paguada@src.org) but we will not be broadly distributing or posting a link.
- Will slides be available?
  - It is up to the speaker whether they're willing to have their slides posted. If they do, they will be posted on the events page after the webinar.
- Can foreign companies participate?
  - Yes, provided they are from countries aligned with the US (not Chinese, Russian, or North Korean).
- How can I get funding from the institute
  - Help us win the selection by NIST, then submit a compelling proposal to be funded.
- Do I have to be an institute member to be funded?
  - Highly likely, but the exact membership and funding model will be refined during proposal writing and contract negotiation.
- What should I do if I have more questions?
  - We'll host three 2-hour info-sessions with 'office hours' where people can drop in and ask questions. Links with dates and times will be distributed soon.
- Is there a limit to the number of orgs that can participate?
  - No but we do have minimum goals for each organization type (SmallCo, academia, Nat Labs, etc.) and we highly value a diverse and inclusive approach. Further, DEI is a significant emphasis topic within CHIPS and will therefore be a key priority for the membership model and throughout the proposal.
- How much does it cost to participate on SRC's MMI proposal?
  - Nothing, just a LOS to participate as Proposal Participant: Supporter and be invited to the upcoming Proposal Participant: Contributor meeting in about six weeks
- What if I can't get an LOS signed by my organization?
  - Not a problem, we're glad you were able to participate in this webinar and hope you learned something. Thanks for joining us today and we hope you can participate in the institute once it's operating.
